Resume of the PhD work

Date:-

Since every research begins with studying the previous researches of different scholars, I made the same attempt. After the registration in August, 2015, I started with the review of literature in relation to my topic so as to make strong conceptual framework and judge the accuracy of my research objective. I started in chronological manner. I began with Chester Barnard research on extra-role behaviour (1930) (1938) followed by Katz researches in 1960's. Then I shifted to Organ's researches in field of Organisational Citizenship behaviour, Good Soldier Syndrome (Organ 1998). Various Antecedents proposed by scholars like Smith, Bateman & Organ were studied, along with Podsakoff (2000) with major focus on two factors i.e. Leader Member Exchange and Organisational Justice. Various researches indicating relationship between OCB and LMX, OCB and OJ by scholars like Ali, Abu; Sabak & Yasir; Li-Yun Suna etc have been studied in brief. After studying these, I have started giving written form to the research and began writing literature review for my research project, ~~that~~ some part has been written and further will continue. Since literature review continues till the research continues.
