- Economics of Land Degradation and Improvement**
 by Ephraim Nkonya, Afshar Mirzababaei, Joachim von Braun - Springer, 2016
 The results of this volume can contribute significantly to the ongoing policy debate and efforts to design strategies for achieving sustainable development goals and related efforts to address land degradation and halt biodiversity loss.
 (4040 views)
- Sustainable Food Systems: The Role of the City**
 by Robert Blel - UCL Press, 2016
 This book, by a leading expert in urban agriculture, offers a solution to today's global food crisis. By contributing more to feeding themselves, cities can allow breathing space for the rural sector to convert to more organic sustainable approaches.
 (4973 views)
- Toward a Sustainable Agriculture: Farming Practices and Water Use**
 by Henry Jordan, Manfred Max Bergman (eds) - MDPI AG, 2017
 The authors explore risks and potential solutions to inform producers and policy makers regarding practices towards sustainable production, and regarding the sustainable use of freshwater in agricultural production in a context of a changing climate.
