

Pest Control

As an education provider, we understand that the health and safety of our students and staff members are vital in creating dynamic environment. The common areas such as cafeteria, library, hall and other facilities are ideal places for pest to thrive with ample nesting areas and food. Early detection and continuous monitoring are essential to minimize the risk of pest infestation. There is a pest control unit at both the campuses; they are taking care for control of the entire pest by spraying recommended chemicals. Our university has tie-up with Ankit Pest Control, Jaipur.
