Dear Sir,

The Department of Electronics and Communication Engineering, Malaviya National Institute of Technology, Jaipur, is organizing a **One Week Short-Term Training Programme on Advanced Digital Devices and Systems** from 28th March to 1st April 2015.

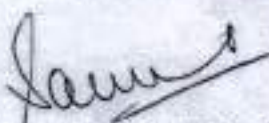

The attractive features of the Workshop are:

- ✓ Eminent speakers from NITs, CFTIs, and faculty members of **MNIT Jaipur** shall be conducting the course.
- ✓ The STTP includes lab sessions, for **FPGA based Implementations and Interfacing** in which simulation work will be carried out by the participants.
- ✓ This course is sponsored by **MNIT Jaipur and other industries**.
- ✓ Faculty members teaching courses on Digital Electronics, Semiconductor Memories, VLSI Design, Formal Verification, Low Power VLSI Design, etc. are expected to benefit immensely.
- ✓ Ph.D/M. Tech students will get good exposure to cutting edge technologies and simulation environments for modern day digital designs.

A copy of the program information brochure is enclosed herewith.

Kindly do the needful to give adequate publicity to this STTP in your campus.

Yours truly,

Sir,

With due respects I want to state that I had attended "Indian Antenna Week-2015" Organized by IEEE MTTs society Kolkata Chapter. This is organized at Government Engineering College, Ajmer. This is one week national level technical program where researchers and scientists of all India repute had present technical sessions. Due to Summer Vacations I am late to produce bills and expenses but looking forward for your kind cooperation. All Bills and certificates are attached herewith. Kindly, reimburse the amount according to university policies.

Thanking You.

COURSE OVERVIEW

It is not an exaggeration to say that Mathematics is the back-bone of Engineering and Basic Sciences. In fact it is considered as the language of Engineering.

MATLAB is a high level technical computing tool and interactive environment for algorithm development, data visualization, data analysis and numerical computation. It can be used to solve technical computing problems faster than with traditional programming languages.

The objective of the short term course is to expose the participants to the use of MATLAB and its applications in research. The course also provides hands on experience with MATLAB software starting from fundamentals by performing various experiments.

FOCUSED AREAS

Applications of MATLAB in

- Mathematical Modeling and discussion of specific models of real world problems
- Optimization Techniques
- Fluid Dynamics
- Numerical Methods and Analysis
- Image Processing
- Statistics and Data Analysis
- Artificial Intelligence
- Ordinary and Partial Differential Equations

SPEAKERS

Eminent Speakers from IITs, NITs & other premier universities across India.
